

BCA High School Referral Program

Current BCA families are eligible to participate in a special senior high referral program. The incentive for this program is paid in the form of credits to student accounts. Qualifications for the referral credit include:

- The student being referred is not now nor ever been enrolled at BCA.
- The person or family who is making the referral must notify BCA they are making the referral.
- The family who has been referred must indicate in enrollment process that they have been referred by the BCA family.
- Only one referring family may be issued the credit. If there is any dispute as to who actually made the referral, the amount of the credit will be divided between referring families.
- A tuition credit of \$500.00 will be granted to both the account of the student referred and the referring family/student. Both students must be enrolled at BCA for the entire school year.
- Referral credits will be posted to the accounts in December and June provided the students are current on their tuition accounts. If the accounts are not current, the credit will be posted when the families become current.
- This program is temporary. Once the number of high school students enrolled has reached an established goal, the program will be suspended.
