

New Family Referral Bonus Program

Current BCA families may qualify for a bonus to be applied as a credit to their tuition account for referring new families to BCA who then enroll a student(s). Qualifications for the referral credit include:

- The family being referred does not now or ever had a student enrolled in BCA
- The referring family must notify BCA they are making the referral.
- The family who has been referred must indicate in enrollment process that they have been referred by the BCA family.
- Only one referring family will be issued the credit. If there is any dispute as to who actually made the referral, the amount of the credit will be divided between referring families.
- A tuition credit of 10% of the new family's first-year tuition costs (not inclusive of fees) will be credited to the referring family's account. The new family must be enrolled at BCA for the entire school year.
- Bonus credits will be posted to the account in December and June provided the new family is current on their tuition account. If the account is not current, the credit will be posted when the new family becomes current.
